**Darts Kit, Torch Kit,**

**Dart Kit**

Your handmade darts will be the talk of the game even if your aim is slightly off. Choose from our wide selection of turning materials to create steel point darts. Body length can be varied from 3/4 to 2" (not including nose & tail piece). Using the patented weighing system, you can build the perfectly balanced dart weighing from 12 to 22 grams. Each kit contains components to complete 3 dart. Brass nose & tail fittings accept standard 2ba points & shafts. You will need a tip installation wrench & a gram scale.

### Coffee Grinders and Salt and Pepper Mechanisms

#### Prime Range

Quality mechanisms manufactured in Denmark. The salt mechanism is made from aluminium and plastic to avoid corrosion and the pepper mechanism is made from steel. They are complete with the necessary fixing plates.

#### Standard Range

A range of high quality, imported mechanisms made from the best materials for practical use. They are nickel plated steel with 3 cross bars for the pepper mechanism and 2 cross bars for the salt mechanism, both have a brass top knob.
