

Pens and Pen Accessories

Darts Kit, Torch Kit,

Dart Kit

Your handmade darts will be the talk of the game even if your aim is slightly off. Choose from our wide selection of turning materials to create steel point darts. Body length can be varied from 3/4 to 2" (not including nose & tail piece). Using the patented weighing system, you can build the perfectly balanced dart weighing from 12 to 22 grams. Each kit contains components to complete 3 dart. Brass nose & tail fittings accept standard 2ba points & shafts. You will need a tip installation wrench & a gram scale.
